OUTREACH STORY

On September 29, 2023, our Historic Core Outreach Coordinator encountered a man lying on the sidewalk. Upon closer inspection, it became apparent that the man was missing a limb. As the Outreach Coordinator approached him, she kindly inquired if he required any assistance. The man explained that his wheelchair had been taken from him while he slept, leaving him feeling helpless and distressed.

Our outreach coordinator offered reassurance, promising to do everything possible to aid him. After tirelessly reaching out to various agencies, she not only located a replacement wheelchair but also arranged for it to be delivered directly to the man on the street. Remarkably, within just a few hours, the man found himself in possession of a brand-new wheelchair. Overwhelmed with gratitude, he beamed with joy as he navigated down the street under his own power.
